

1. THE FIRST TIME

Wish that I was here with you
No more to say so much to do
I feel the love that's so intense
It's how I feel I know that it makes no sense
Wish that you were here with me
Oh won't you stay and set me free
It won't be long until you find
I need you, want your love
Just like the first time's not enough
Want you need you now
Just like the first time

Out of sight, colour blind
Feeling lost and undermined
Couldn't sleep you know I shout and scream
Need you, want your love
Just like the first time's not enough
Want you need you now
Just like the first time

Now I see the truth in me
I will never let it be known
That I was a fool to be so wrong
Now there's something happening
We've got everything all right, all night long

Need you, want your love
Just like the first time's not enough
Want you need you now
Just like the first time
