

## **6. EVERYBODY NEEDS SOMEBODY TO LOVE**

It's great to see you  
After all this time now  
How are you doing?  
You look the same now  
Do you remember the day we found each other?  
It seemed like magic  
I wasn't in control  
You came home one night and didn't feel too good  
I tried to cheer you up did everything I could  
You looked at me and whispered  
"Thanks for being there"  
*Everybody needs somebody to love*

I still believe  
We can get it together  
I've got to see you  
Don't wanna act the brother  
You think I'm joking  
After all those bad times  
But that's all past now, I feel like born again  
It seems my mind was like a million miles away  
I've never known why we had nothing much to say  
It takes no more than this to realise it's true  
*Everybody needs somebody to love*
