

7. THAT'S HOW I'M LOVING YOU

I would die for you
And live another day
I would lie for you
If I could find a way
I would hold my hand above a naked flame
Could you understand I'd even change my name
That's how I'm loving you

I would cry for you
And drown in all my tears
I would spy for you
When daylight disappears
I would feel so good
If I could leave this world behind
Could you talk with me, walk with me
Give me peace of mind
That's how I'm loving you

We don't need to compromise
Cry out loud and sympathise
Somehow, somewhere we will find
A place, a time to realise
This is just our situation
No need to wait for validation
This is how I'm loving you..
