

Blackberry Brandy

They built a new high school
On an old tobacco field
We didn't know our future
But now it's revealed

Blackberry brandy
In the apple orchard trees
Kisses and the autumn moon
The first one is so sweet
Blackberry brandy
Way up on Mountain Road
Warmth on a chilly night
The first girl that you hold

The gym's wood floor was gleaming
And the banners high upon the wall
Lockers stood like sentries
Lining every hall

The trophy case treasures
Guideposts of the past
Blood and guts and glory
Sit behind the glass

The bonfire leapt so high
Wood pallets in a stack
Bright fingers in the sky
Someday we'll all come back

Blackberry brandy
In the apple orchard trees
Kisses and the autumn moon
The first one is so sweet
Blackberry brandy
Way up on Mountain Road
Warmth on a chilly night
The first girl that you hold

They built a new high school
On an old tobacco field
We didn't know our future
But now it's revealed
