Opportunity: Experimental Sound Directory - Ideas of Noise Festival Celebrating experimental sounds from the West Midlands

Ideas of Noise is an exciting new festival of experimental sound taking place August 3rd-5th in Digbeth, with a focus on connecting experimental audiences and performers of different genres across the West Midlands and creating opportunities for emerging and local artists. With a programme spanning free improv, electronica, sound art, noise, contemporary classical and more, there will be a mixture of performances and installations, as well as family workshops and DIY participation areas. Our partners include Celebrating Sanctuary, Surge, Supersonic, TDE promotions, Fizzle, The Lombard Method and BCU.

As part of the festival, we are putting together an installation/playlist of experimental sounds from the Midlands and beyond, showcased via listening posts placed around the festival site. We are asking for artists to submit tracks to be included in this showcase.

By submitting files you authorise IoN to broadcast the work at the festival as well as including it in an online legacy archive of the Sound Directory. You will retain all intellectual property rights for your work and have the right to withdraw your work from the project at any time. The listening posts and archive will not be used for profit.

To submit tracks or for further information, please email ideasofnoise@gmail.com

The deadline for submissions is 13th July 2018

We look forward to hearing from you!
