# STAGE PLAN

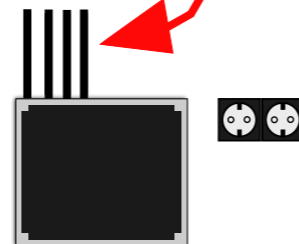

**We are using our own in ear monitoring system. All monitor speakers on the stage should be turned off. Following signals have to go to our splitter inside the monitoring system before they return into the regular stage box**

- 2x Backing Vocals
- Kick Drum
- Snare
- Drum Overheads

**Following signals are coming directly out of our Rack and have to be routed to the stage box**

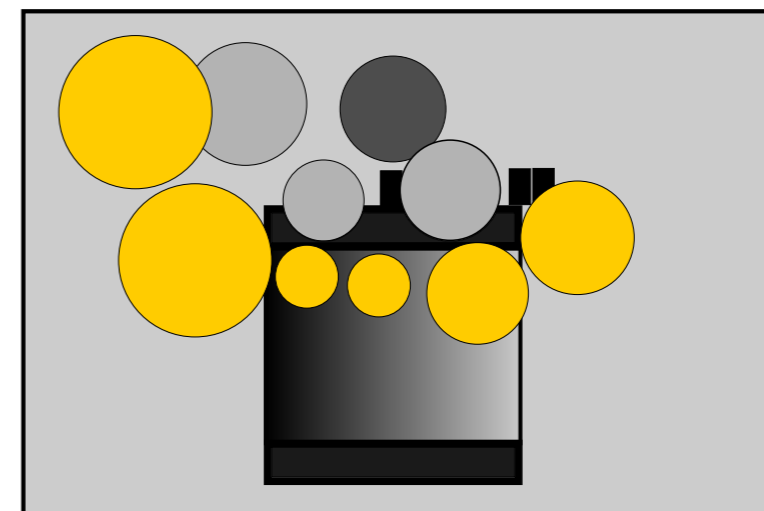

- Both Guitars
- Bass
- Main Vocals
- 3x Samples (Stereo L,R + Subdrops separate)

**Required Inputs in Stage Box: 12**
