

Next Card to Fall Lyrics

Sharkey wrote a song
It goes love is a storm
In it you are lost
In a place that never was
The storm hangs around
Until it's time to move on
Leaving you to guess
What'll be the next
Card to fall

Evangeline said out loud
I got to leave you now
I'll see you another day
If the story goes that way
I got to find the child
Living on my blind side
I left her out on the edge
Waiting for the next
Card to fall

Who'd be fool enough to call
The next card to fall

Little Joe in Tulsa town
He got soul deeper down
He is young he is old
He is gone down the road
Missing his brother
Who went on over
He just up and left
Looking for the next
Card to fall

Out of Frankie's only son
Not a word for so long

After all this time
Still a wall up inside
A shame is what it was
That ran up such a cost
Oh the heaviness
At the mercy of the next
Card to fall

Who'd be fool enough to call
The next card to fall
