

## **Take It All**

Schnebelen/Osborne

Just take it all, don't leave anything  
I can't take the memories and all the pain that it brings  
If you leave me please don't forget my heart

I gave it all, more than I could give  
My poor heart doesn't have an ounce of life left to live  
If you leave me please take it all

Take my heart  
Don't leave it behind  
Cuz I can't have  
All your loving on my mind  
Please take it all
