

save me

Fire in my eyes, feel the heat on your skin
Wanna take me to the bankside try to wash away my sin
but I wanna know, where you think you going with my soul
I wanna know how you're gonna save me

you've been on my case, saying i need a change
so twisted up inside about my wicked ways
you say i'm wild, but i say that i'm running free
you say i'm dying and need someone to save me

say i'm living my life like a train in the night
you don't think i'm going to make to see the next sunrise
you think i'm tortured only you can set me free
you say i'm dying and I need you to save me

you want to take me down to the river
want to put my head in the -water
say i'm living the life of a sinner
i need someone

you've got to peel back the skin
have to take off the mask
for the reasons i won't tell you
i never thought you'd ask
I want to know, how you're gonna' save me
