

FoG

You tell me to go you don't want me to stay
I head for the door you say, don't go away
That old fog is rolling in, that old chill is in the air again
Turning from light to dark, something's going to break my heart

You give me your love, then you take it right back
You've got yourself buried deep inside of your flask
That old fog is coming down, I smell the change coming all around
Keeps raining more and more, the further that i walk from your door

But all i wanna do, is love you
Baby, baby, I got to love you

Being without you is like being with no soul
It kills me to know that you don't love me no more
That old fog is rolling in, I'm stuck outside and you won't let me back in
Got rain falling on my shoes, this ain't a game when we both are going to lose

But all I want to do, is love you
Baby baby, I still have to love you
