I dig sleeping with people, but people get the wrong idea. A lot of boys like me though... They love me. They REALLY love me!

How old were you when you first had intercourse with a boy?

Fifteen. I was really scared. I was so lonely. I was really lonely. Now I'm not lonely at all, cause I have all these, you know... painkillerz!

Tragic are scars come far and beyond
Tragic are scars come far from and beyond
On a cosmic strip - In and out with it
Through naked eyes we tweak
Magenta are the skies when we peak

Dope Freek, Dope Freek, don't freak
Dope Freek, don't freak , Dope Freek
Dope Freek, Dope Freek, don't freak
Don't freak, Dope Freek

You're a killer to the core - Run from the guns that salute you
I can't save you anymore - Run from the guns that shoot you
It's not in your head baby - Run from the guns that salute you
It's all in your head crazy - Run from the guns that'll shoot you... dead

Tragic are scars come far and beyond
Tragic are scars come far from and beyond
On a cosmic strip - In and out with it
Sun-blind to The Now
Break the chains, kill the klowns

heyyyyy....

On a cosmic strip - In and out with it
All we've got is just one shot
Levitate beyond the lust

I was so lonely. I was really lonely. Now I'm not lonely at all, cause I have all these, you know...painkillerz!
