Feel the bite, feel the bite

I'm leading the way to an escape  
I'm casting a stare straight for your eyes

A space locked inside,  
Outta sight, outta sight

I'm the one with the claws (purrr)  
Gotta way with the law  
I'll fade you away  
Full of despise

A space locked inside  
Outta sight, outta sight  
A space locked inside  
Outta my mind, outta my mind  
I'm leading the way to an escape  
I'm casting a stare straight for your eyes

A space locked inside,  
Outta sight, outta sight

I'm buried in black  
Swimming in a sea of indifference
