*Reality is the only word in the language that should always be used in quotes
Reality is the only word in the language that should always be used in quotes
I don't want another one of your rational explanations
I know what I experienced....and I'm not crazy*

You things, things, things of the flesh do it slow
Down avenues, fuck me, lust my eyes
Licking lips encouraging Mr. Care-warn
To gaze upon the screen, bask on after the flesh

*AHHHHH, alright that's it! Get her outta there! That's enough!
Reality is the only word in the language that should always be used in quotes
AHHHHH, alright that's it! Get her outta there! That's enough!
I don't want another of your rational explanations*

We'll infect your carnal mind, mind, mind...
After the flesh

Tonight we murder...

*I know the whole story
I've decided to forgive you*

I walked in forests with ugly spirits
Kissed their feet and found them calm, calm, calm
Still I don't have any money, money, money, money
My body suffers after the flesh

*AHHHHH, alright that's it! Get her outta there! That's enough!
Reality is the only word in the language that should always be used in quotes
AHHHHH, alright that's it! Get her outta there! That's enough!
I know what I experienced and I'm not crazy!*

AAAAnd I'm not crazy!

*I know the whole story
I've decided to forgive you*

We'll infect your carnal mind, mind, mind...
After the flesh

Reality is the only word in the language that should always be used in quotes

And I'm not crazy!

*We're not all love anymore, that's gone!
That flower power is great stuff, I mean it's beautiful!
But you can't be kind and gentle to people all the time
It doesn't work...*

*Because people got raped and mugged...
And I know these people that died down there, Groovie and his chick!*
