

THE WOLF

Walking Around
you never know what
you'll find

You never knew
The wolf would take your mind

But you keep walking
you keep talking
Your sayin
your sayin
your sayin
your sayin

I thought alot about it
I thought alot about it
I thought alot about it
I thought alot about it

The wolf is lurking
you never know what
It finds.

You never knew
The wolf would take your mind

But you keep walkin
The wolf is stalkin

Your sayin
your sayin
Your sayin
your screamin

There are many times and they are
The ones that spin you 'round and have
something to show you

There are many people 'round here
Time is a wolf that feeds on everything
we fear
we fear
we fear
We fear

Thought alot about it
Thought alot about it
Talk alot about it
Talk alot about it
Doubt alot about it
Doubt alot about it
Thought alot about it
Thought alot about it

Walking 'round
you never know what
you'll find
You never knew
The wolf would take your mind

But just walking
Just keep talking
And sayin
And sayin
And sayin
And screamin'

There are many times and they are
The ones that spin you 'round and have
something to show you
There are many people around here
Time is a wolf that feeds on everything
we fear we fear we fear

Your a mind on the move
you're a soul in the groove yeah
The wolf is gonna take your mind
The wolf is gonna take your mind
