BROCCOLI ~ PLENTY TO BLANCH & FREEZE!

EGGPLANT ~ WE GROW BOTH LONG ASIAN, &

ITALIAN GLOBE EGGPLANT.

HEAD LETTUCE ~ ROMAINE

CABBAGE

The peppers are coming on strong! With the heat and humidity we've had, they are rapidly turning from green to yellow, red and orange. I love a crunchy green pepper, but when the colorful peppers start to come in, it's time for fajitas out here!

Some of the summer crops are either finished or starting to wind down including cucumbers, squash/zucchini and eggplant. With the summer crops phasing out, the fall crops start getting phased in... Next week will mark the start of the winter squash harvest. Spaghetti squash will be the first to arrive in shares followed by delicata, acorn, and butternut to name a few. It looks like it's going to be a plentiful harvest indeed.

The best broccoli yet this season!

A bountiful harvest of peppers, eggplant & squash!
