

# LUNA CRUISE

## BIOGRAPHY (Short)

Jacksonville-based Luna Cruise is forming a contemporary sound reminiscent of classic rock icons with a new age twist. Featuring poetic compositions and varied instrumentation, they showcase 70's psychedelic nostalgia through their driving grooves. They have taken to the woodshed in preparation for their newest EP *Sand Reckoner* set to release the Summer of 2020. With the land riddled in pestilence for the time being, shows are on hold while alternate dimensions are discovered in the name of music.
