To Whom It May Concern:

As Founder and Music Director of the Chamber Orchestra of Philadelphia until 2004, I am happy to offer my highest recommendation on behalf of Scrap Arts Music.

We invited this excellent ensemble to join forces with my Chamber Orchestra in 2003, asking Gregory to compose a piece for our combined ensembles.

The entire process was pure joy, with everything going like clockwork: The "Composition for Sigh-chordions and Strings" was excellent; Scrap Arts performed beautifully; they were wonderful to work with; and they attracted one of our largest audiences of the season. In addition to our own audience, we were able to attract a younger group of people not classical music orientated. Thanks in part to their excellent management, everything worked out so well!

They are extremely gifted performers, appealing to audiences of all kinds, and I highly recommend them.
