

# Blackbird Fly

By Scott Wilcox © April 2015

G D  
Oh she's a Blackbird, cryin in the night  
Em Cm  
You got to take your broken wings and re-learn how to fly  
G D  
Oh all your life, waiting for your moment to arise  
Em  
You got to mend those broken dreams  
Cm  
And fly into the sky, so high  
(G/D/Em/Cm/G)

Oh my Blackbird, sing a new song (Em, D)  
Rise from the ashes; right all the wrongs (Em, Cm)  
All your life, you felt the hope was gone (G, D)  
Feel that gentle breeze (Em)  
That you've waited for so long, (Cm)

## CHORUS

G D  
Fly, blackbird fly  
Em  
You got to mend those broken wings  
C  
And see the joy it brings  
G D  
You got to Fly, blackbird fly  
Em  
Just let go of gravity  
C G/D/Em/C  
Find your way, be free, and fly

Oh my Blackbird, I know you're in pain (Em, D)  
Take time to rise above it, not all people are the same (Em, Cm)  
Oh Blackbird, When you've taken time (G, D)  
Take a look around you, you'll see my smile. (Em, Cm)  
(G/D/Em/Cm/G)

## BRIDGE

Em D  
And when you can finally see  
Em  
The world that surrounds you  
C  
The love all around you  
Em D  
Then you can make your way  
Em Cm  
Back to me, Come back to me (**Chorus**)
