

About Time

Written by Scott Wilcox (c) 2009

True love is like a warm soft wind D9/G
Blowin memories through my mind again
Silent reminiscing over love's first kiss C/G
Believing no one could love like this C/A

In love is like your closest friend D9/G
Feeling like there's not enough time to spend
Spending time together day by Day C/G
Takin time each and every day to say C/A
I love you... I love you D9/G

At eight I wake just to see your face shining in the morning sun D9/G
soon its noon and your sweet perfume makes my day come all undone
soon its six and I rush home quick just to see your lovely face
Every now and then I take time at ten just to look in your eyes and say
I love you... I love you

Your love is like a gentle smile D9/G
Laughing lovingly a long long while
Softly whispering that same sweet song C/G
And gently lovin you all night long C/A

My love for you is long and strong
Like a rollin river carryin you along
Slow and steadily lovin you everyday
I think its about high time I say
I love you D9/G

At eight I wake just to see your face shining in the morning sun
soon its noon and your sweet perfume makes my day come all undone
soon its six and I rush home quick just to see your lovely face
Every now and then I take time at ten just to look in your eyes and say
I love you... I love you
