

## Those Words

Written by Scott Wilcox based on a poem by Rachel Lynde

I was your best friend (D)  
But you left me to die alone (A)  
In a bag of burlap (Em)  
On a lonely country road (G/A)  
Broken and beaten (D)  
I swore it was my last (A)  
Cold night in Houston (Em)  
When I heard the shotgun blast (G/A)

Then those words came whisperin' through the darkness (G/A/D)  
When those words said I wasn't alone (G/A/Bm)  
When those hands brought life to the lifeless (G/A/Bm)  
That's when I knew this dog found a home (G/A/D)

When she picked me up  
She whispered in my ear  
I won't hurt you  
As she wiped away a tear  
I picked my head up  
Tried to wag my tail  
But couldn't manage  
So beaten and so frail  
Bridge

I know you could have left me (Bm)  
Please don't you forget me (G)  
Don't leave me out here all alone (D/A)  
All it takes is someone caring (Bm)  
A little love and a little sharing (G)  
A little place to call my own (D/A)
