

SMILE

By Scott Wilcox

I never played much when I was young D/A
There was too much work to be done Em
and not enough time for fun, G
I was sometimes lonely
But since the very first day we met, D/A
You know I haven't been lonely yet Em
Since the day you said be mine G
I've been your one and only.

CHORUS

You know I never believed in love Em/G
But I did believe in you, D
And found that love was true A
No I never learned how to cry Em/G
But when I see things through your eyes, D
It makes me want to smile, and smile... A/Em/G

So now I'm asking you to be my wife
Share every moment of my life,
So put your hand in mine,
Can you feel the sunshine?
With every breath and every step,
Making every moment I can the best
Every word I say is true,
cause you know I love you.

CHORUS / REPEAT VS #1
