

Strength in the Water

Written by Scott Wilcox © October 26, 2016

G Am
Mother Earth she came to me, She took me by the hand
C G
And told me her vision about the oil, she said
G Am
Once we lived happily, Coexisted peacefully
C G
Proud of our work, sweat and toil.
Em
Then there came the big machines
C
Powered by the lust and greed
G D
Of men who no longer worked the land
Em
They dug our bones from the mound
C
Killed the water underground
G D
Hauled away the men who dared to stand

CHORUS

G D Em C
Remember, In the darkest hour, You have the power to change the world.
G D Em C
Together, in your finest hour, you'll find the power to be heard.
G D Em C-G
You'll find strength in the water. (2x)

You the simple few, Bound to make a stand (G, Am)
You vowed to take your mother by the hand (C, G)
You stand through the light of day, bore gases, pain and pepper spray (G, Am)
You stayed strong, to protect the land (C,G)
When all the people follow through (Em)
Supporters of Lakota Sioux (C)
Brothers, all races make a stand (G, D)
In the end we'll win the day (Em)
No matter what corporations say (C)
We are the caretakers of the land (G, D)

CHORUS
