

## **Easy Kind of Love**

By Scott Wilcox

I look out my window  
It's midnight, through the city lights I remember  
I don't know the reasons  
I'm looking back through the seasons  
Do you realize you're the music in my eyes?

I know that I believe  
Everyone looks for an easy kind of love  
I don't know the reasons  
I'm looking back through the seasons  
I owe to you the music in my soul.

Everybody's looking for an easy kind of love  
Don't search your whole life, depend on musical love  
If you want to grow older, and not grow colder  
Let music be your easy kind of love.

Now I know a forever love  
It comes in from the cold winter snow  
I don't know the reasons  
I'm looking back through the seasons  
Music is a love to follow

Teacher teach me all I need  
To survive in the world and with love  
I now know the reasons  
I've been looking back through the seasons  
An now I know an easy kind of love

Everybody's looking for an easy kind of love  
Don't search your whole life, depend on musical love  
If you want to grow older, and not grow colder  
Let music be your easy kind of love.
