

All the Kings Horses

Written by Scott Wilcox © 2012

E G D A
Weather's change, And if it don't stay the same
E G D-A
It don't mean a damn to me
E G D A
Things rearrange, As long as I'm not to blame
E G D-A
It's all the same to me.

CHORUS

C G D Em
All the king's horses and all the king's men,
C G D A
Can't put the world back together again.
C G D Em
Why should I watch the world die?
C C G
When I could have tried, to bring all the king's horses?

The corn won't grow and there aint no ice and snow
Up in the North Pole
The Oceans rise, the suns so hot outside
That the fish die (but what if...)

CHORUS

Bm C A7 C7
Why do I stand here and watch it die? Oh why

Selfish greed, Is makin it hard to breathe
And still we stand here
Climate change, Some of you don't believe
And its so clear
