

No Need To Cry

tekst Trinelise Væring/musik Fredrik Lundin

Theres no need to cry my dear
Mama's got the car in gear
we'll just drive on through the night,,,
You can sleep, and wake up with the lighth
No your daddy he can't come along

Theres no need to cry my dear
The elephant will go in here
You will find new friends town
There'll be other girls your age arround
But your daddy he can't come along

Can I stand up at all
I'll be there to take the fall
For you
Anything for you
But there's one think
That I cannot do....

No way we can stay stay....
We have too leave to day

Theres no need to cry my dear
I'm always gonna be righth here
if you like I'll sing you one
of the lullabyes that daddy used to hum
no your daddy he can't come to stay

there's no need to cry my dear
don't you think all in all that we're
doing well the two of us
we don't need the car we can take the buss,
no your daddy he can't come to stay

Can I stand up at all
I'll be there to take the fall
For you
Anything for you
But there's one think
That I cannot do....

I can't get your dad for you
But daddy love you too
