

FOOL NO MORE

Peter Eldridge

All too eager to agree
The prisoner waits for release
Taking no uncertain steps
And killing 'em with kindness

Up against his toughest crowd
Nobody works harder than a clown
Laughing on the outside
And trying to leave the place alive

Some folks live their whole life like a dog
Hanging on his master's voice
Do what you must to stay alive
Play along just to survive

I don't wanna play the fool no more
don't wanna play the fool no more
I don't wanna play the fool no more
don't wanna play the fool no more
Trying to make up for lost time
Trying to leave my fool behind
leave my fool behind

(Repeat Bridge and Chorus)
