

PART OF THIS WORLD

Peter Eldridge

I stand in silence, holding on to the air
As if one step would be more than I could bear
Fight for love, fight for peace
Fight through the crowd
And I watch as stars tumble to the ground

I wonder if it's me, if I'm the only one
Here on the outside, forever trying to see in
And the world goes on all around me
With or Without
I stand in silence, a shadow full of doubt

Is it wise to be part of this world?
Can't imagine me, part of this world

I stare from my window looking toward distant lights
There in the darkness restless souls share this night
We are worlds apart, worlds unknown
Sharing space and time
Are we all so far from finding peace of mind?

Is it wise to be part of this world?
Can't imagine me, part of this world
Part of this world
