

Voices Around The World 2016

Vocal Parts Score

Lighting Up The Flame

This score shows all the main vocal parts. Please note that the vocal melody lines can be adjusted by an octave where necessary to suit the vocal ranges of your students and their ages.

It is important for the purposes of the project that students learn to sing with the MP3 versions of the choir parts as well as practising and rehearsing using the vocal score. To make acceptable vocal recordings for submission to VATW it is very important that the students are singing as closely in time as possible with the MP3 vocal templates.

We hope that as many schools as possible will submit recordings of all 3 vocal parts. However, for very young children or for those who are not such confident singers, we suggest that the Part 1 Main Tune vocal line is the best one on which to focus.

Lighting Up The Flame
