

brecnmari is Excited to Announce the Release of “Superhero,” Their Second Release in a Steady Stream of Good-Vibes-Only Records!

Listen to “Superhero” here: ["Superhero"](#)

brecnmari consists of Brecon Richards and Mariana Bandhold, two singer-songwriter-producers who came together through a conspiracy of the Universe. It had already been written. They had no choice but to combine their musical, production and performance talents to create good-vibes-only music. Influenced by the likes of Odesza, Zedd, Martin Garrix, Louis the Child and The Chainsmokers, Mariana’s warm, powerful and intimate vocals combine with Brecon’s tasteful electronic music production to create their signature electronic-pop sound. The brecnmari sound wraps carefully around the duo’s hand-crafted lyrics to create an irresistibly positive and relatable experience for any listener.

“Superhero” is a journey of personal growth and forgiveness following the deepest of pain. Crushed by the loss of her father as a child, she learns to respect and honor her scars. Resentment eventually dissolves to reveal acceptance as her sense of loss becomes her strength.

Anchored by rich, soulful vocals, “Superhero” delivers an introspective and inspiring message. However, just as pain becomes a source of strength and positive resolve, the carefully crafted yet energetic music production and arrangement lifts “Superhero” in a surprisingly fresh way. This contrast of sugar and spice provides a satisfying yin-yang interconnectedness, a hallmark of the brecnmari sound.

New single “Superhero” will be released on December 20th!!
