Listen to "Crazy" here: ["Crazy"](#)

breconmari consists of Brecon Richards and Mariana Bandhold, two singer-songwriter-producers who came together through a conspiracy of the Universe. It had already been written. They had no choice but to combine their musical, production and performance talents to create good-vibes-only music. Influenced by the likes of Odesza, Zedd, Martin Garrix and The Chainsmokers, Mariana's warm, powerful and intimate vocals combine with Brecon's tasteful electronic music production to create their signature electronic-pop sound. The breconmari sound wraps carefully around the duo's hand-crafted lyrics to create an irresistibly positive and relatable experience for any listener.

"Crazy" is a song about the angst and anticipation that overwhelms two soon-to-be lovers. They try to ignore it, focus on their day-to-day, and look the other way. But they cannot escape, they must be together. Denial only makes them crazy.

"Crazy" is laced with delicate and building intimacy but eventually explodes with anthemic sonics and soaring vocals. It is a journey of contrasting emotions and energy, requiring deep breaths and reflection when the music ends.

***New single "Crazy" will be released on November 10<sup>th</sup>, the one-year anniversary of the birth of breconmari !!***
