

Lyrics

Let's Ride

Words and music by Dean Richard, Copyright 2011

C'mon baby, get on the back
Let's go out for a ride
The highway's calling and
It sounds like freedom
The feeling can't be denied
We feel free, beneath the wind and the sky
Just you and me and a bike
Look to the sky, babe, look to the sky
C'mon baby let's ride

It sounds like thunder, a heavy rumble
Feel the engine roar
Vibrating power between our legs
It's a rush for sure
It makes me high, so very high
When we throttle it up
If we had wings we would be taking off
I think we're starting to fly
And I need to fly, babe, I need to fly
C'mon baby let's ride

Chorus

Bridge

You look so good, you look so fine
Dressed in that little tank top
There's something about leather and lace...
Now hold on tight 'til we stop

My engine's running, you got it running
You got me running hot
You got me going now, let's keep it going now,
We're never gonna stop (Chorus)

Credits

Dean Richard - Lead vocal, slide guitar, rhythm guitar, harmonica, cowbell
Tracy Hannemann - Backing vocals
Smith Curry - Lap Steel guitar
