

Lyrics

Living the Dream

Words and music by Dean Richard, Copyright 2011

(What life would be like if we were really 'living the dream')

Monday, sip margaritas on the beach
Party all night and day
Tuesday, shots of tequila on the beach
Party all night and day
Wednesday, wine and beer on the beach
Party all night and day
Thursday we'll run naked on the beach
Party all night and day

Woh oo woh oo woh

Chorus

We're living the dream (we're living the dream)
We're living the dream (we're living the dream)
So much money we don't know what to do
Too high to think and so we never do
We bought the sun now it shines night and day
Just lie on the beach and play, play, play
We're living the dream

Friday for fun let's win the lottery
\$50 million is just spare change
Saturday I learn Bill Gates is my uncle
\$100 million for my birthday
Sunday you could have been a supermodel
But it wasn't worth it for the pay
And I could have made a killing on Wall Street
But it didn't fit into my day

Woh oo woh oo woh

Chorus

We're living the dream (we're living the dream)
We're living the dream (We're living the dream)
Spend every day having too much fun
No work, just play and lay in the sun
So much money we don't know what to do
All the time we want to lay around and screw
We're living the dream

Bridge

There's wealth inside your head

Gotta live before you're dead

Nirvana, heaven, enlightenment

Alcohol and dred

We're living the dream (repeat and fade)
