

ROCKETSHIP • Synopsis

ROCKETSHIP is a 15-minute family drama from award-winning filmmakers Alfred Thomas Catalfo (writer/director of the Web hits **THE NORMAN ROCKWELL CODE** and **BIGHORN**, and winner of 27 major screenwriting competitions) and Glenn Gardner (producer of Cannes Film Festival Palme d'Or winner **SNIFFER**, and **BIGHORN**).

An unlikely bond is forged between a lonely boy and an elderly man claiming to be a former astronaut. Together, they transform a vintage vacuum cleaner into a rocketship for a surprising journey. The story is inspired by the rocketship sculptures of artist David Random, who fashions them from repurposed artifacts.
