**What do you think about... when you're alone... at night... in the dark?**

Enter the world of Nightsongs, a song-cycle of beautifully evocative and lyrical jazz-based songs that explore the stories created by the mind when we're alone, at night, without distractions.

It's impossible to stop thinking, not even meditation or medication can silence the relentless chattering that generates a whirlwind of thoughts, memories, feelings and emotions in a never-ending stream of consciousness.
