

Just What I Needed: Cars

E                    B                    C#m                    Ab  
I don't mind you comin' here    and wastin' all my time  
E                    B                    C#m                    Ab  
'Cause when you're standin' oh so near    I kinda lose my mind  
E                    B                    C#m                    Ab  
It's not the perfume that you wear    it's not the ribbons in your hair  
E                    B                    Ab                    A  
And I don't mind you comin' here    and wastin' all my time

E.... B.... C#m.... Ab....

E.... B.... C#m.... A....

E                    B                    C#m                    Ab  
I don't mind you hangin' out    and talkin' in your sleep  
E                    B                    C#m                    Ab  
It doesn't matter where you've been    as long as it was deep, yeah  
E                    B                    C#m                    Ab  
You always knew to wear it well    you look so fancy I can tell  
E                    B                    Ab                    A  
I don't mind you hangin' out    and talkin' in your sleep

<chorus>

E B                    A                    C#m  
I guess you're just what I needed  
E B                    A                    C#m  
I needed someone to feed  
E B                    A                    C#m  
I guess you're just what I needed  
E B                    A                    C#m  
I needed someone to bleed
