

## Let's Play Pretend

I am an astronaut flying in space,  
Come on along with me,  
Out on my spaceship far away,  
Come on along with me.

I am an astronomer studying the stars,  
Come on along with me,  
Maybe I'll find some friends on Mars,  
Come on along with me.

**You can do the job if you're a boy a girl.  
You can do anything in this world,  
Put that imaginary hat on your head,  
Come on along let's play pretend.**

Out of my telescope I can see,  
Come on along with me,  
All of those planets surrounding me,  
Come on along with me.

I am on my way to the moon,  
Come on along with me,  
In my ship I've got a seat for you,  
Come on along with me.

Repeat Chorus
