I try my best for you  
Wake each morning  
With faith "I can do"  
Something deep within  
Gives me courage  
It feels so overwhelming

I try  
Sometimes cry  
Pray to God, guide me high in everything I do  
To protect you  
Your trust in my hands  
I've learned to understand

We fly together or we don't fly at all  
I am here your defender  
I rise to your call  
Sharing hope that guides us  
United, I promise to fly high together  
Or we don't fly at all

I've seen amazing things  
From forgotten people  
A strength inspiring me  
It's a humbling road  
To be part of something greater  
Feel humanity unfold

So I try  
Sometimes cry  
Pray to God, guide me high in everything I do  
To protect you  
Your trust in my hands  
I've learned to understand

We fly together or we don't fly at all  
We are here for each other  
Through the rise and the fall  
Sharing hope that guides us  
United, I promise to fly high together

I see Angels surrounding me  
Heroes everywhere  
Brave hearts that care  
It's a frightening road  
To try to go it on your own  
Let's fly together  
Lift up our wings of love

Fly together or we don't fly at all  
We are here for each other  
Through the rise and the fall  
Sharing hope that guides us  
United, we promise to fly high together

We fly together or we don't fly at all  
We are here for each other  
Through the rise and the fall  
Sharing hope that guides us  
United, we promise to fly high together

We fly together or we don't fly at all  
We are here for each other  
Through the rise and the fall  
Sharing hope that guides us  
United, we promise to  
Fly, fly, fly
