

#### 4. HELLO WORLD

Hello World - it's just me  
I've been wondering how you're doing  
So I came outside to see  
I could give more than I do  
From now on, it's me & you

Let's build bridges  
Tear down walls  
Come together  
Mother Nature needs us all  
Let's be champions lead the way  
Be the voice, make a choice today

Hello World - I brought friends  
We've been talking about the future  
And we know it all depends  
On how we live & what we do  
From now on, we're here for you

Let's build bridges  
Tear down walls  
Come together  
Mother Nature needs us all  
Let's be champions lead the way  
Be the voice, make a choice today

Listen, be still  
We can change the world  
Say you will

Let's build bridges  
Tear down walls  
Come together  
Mother Nature needs us all  
Let's be champions lead the way  
Be the voice, make a choice today x2
