

## 6. HALF PAST CRAZY

Second place in a race for love is last  
Didn't know I was running  
It all went down so fast  
Nobody told me & you lied to my face  
I fell from grace  
Never mind  
I'll be fine

Half past crazy, way past blue  
A long way down the road to never getting over you  
Half past crazy, way past blue  
Coming up on losing my mind  
Coming up on losing my mind

I'm a walking broken heart taking to myself  
Keep on keeping on  
While you're with someone else  
I'll find a way to quit you, addiction costs too much  
You're just a crutch  
Never mind  
I'll be fine

Half past crazy, way past blue  
A long way down the road to never getting over you  
Half past crazy, way past blue  
Coming up on losing my mind  
Coming up on losing my mind

*If you're so inclined  
To be kind & rewind  
Come & find me*

Half past crazy, way past blue  
A long way down the road to never getting over you  
Half past crazy, way past blue  
Coming up on losing my mind  
Coming up on losing my mind
