

Don't Let 'Em Get Yer Goat

(By Sean McCollough)

Chorus:

Don't let 'em get yer goat C
Don't let 'em bring you down
Don't let 'em under your skin F
Don't let 'em make you frown C
Cause it doesn't really matter G
What other people think Am F
As long as you like you C
and the things you do G
Don't even let 'em make you blink C

I heard Johnny say to Jimmy Am F
That Sally said to Sue C
That Tammy said to Tommy Am F
That she doesn't like you C
Well it may be false Am F
Or it may be true Em Am
But whatever it may be F G
Let me tell you what to do C

Chorus

I saw Freddie whisper something
To little Beth McGrath
Then they both looked at you
And they started to laugh
It made you feel kinda small
Made you wanna disappear
But I got something to tell you
That you really ought to hear

Chorus

Well I heard about the bully
He was pushin' you around
He was bein' kinda mean
Bringing everybody down
I guess you better tell a grown-up
Before he takes it too far
And I hope you will remember
We love you just for who you are

Chorus
