### Susie Fitzgerald

Susie Fitzgerald waltzes with her memories in “No Drinkin’ Alone”, reason spreading out and into her body and mind a little slower than the effects of the alcohol. On Plenty, Susie moves beyond memory and makes demands on her life (“Bring in the Light”), seeks out a place to kick back and stop swimming in the deep dark waters of love for just a little while (“Safe Harbor”), dons the mantle of mother (“Lullaby for Baby”) and rocks for the need to let go of personal wars (“Peacetime Now”).

Music is a second time around romance for Susie. She began playing guitar at fourteen, soaking up her Folk influences in her native Colorado. She put the guitar aside and proved making a song you can be proud of only takes one good note and one bad man; *“I stopped playing for about a decade. A few years ago, I experienced sort of a ‘perfect storm’ of loss. I had my heart badly broken, suffered some severe health issues and totally burned out on my career as a museum professional”*. Susie Fitzgerald stacked the sound deck on Plenty with Nashville session aces.
