

Stay Away A Little Closer

Jeff Berkley

I don't fall in love cold turkey
That's if my heart works at all
Somehow my heart just isn't working
But you knew it all along

How did you know that I was hurting
And did you notice I was scared
And
How did you know that even flirting
Would make me vanish in thin air

Stay away a little closer now
Lord knows it ain't fair
Cause if my heart ain't going slowly
Then it ain't going no where

So you found an open window
To this heart beyond repair
You never pushed your way
Inside my broken soul
But lately I can feel you there

Stay away a little closer now
Lord knows it ain't fair
Cause if my heart ain't going slowly
Then it ain't going no where

I let you in a little every day
Even when I am unaware
You didn't ask for something more from me
You fell in love with what was there

Stay away a little closer now
Cause I'm almost there
Cause though I am moving slowly towards you
At least I am going somewhere
Going somewhere
