

## **Austin Girl**

Jeff Berkley

I got me an Austin girl  
With cowboy boots and purple curls  
A cotton dress as plain as day  
She's pretty as the milky way

And I got me a wildflower  
Changes colors hour to hour  
She's just like the Texas wind  
Her whisper makes me wanna sin

And I got some photography  
A camera caught her watching me  
Her face was like a Christmas star  
While I was filling up her heart

And my Austin girl sings like a bird  
She already knows the words  
They're written on her heart and soul  
She will make them beautiful

Well I got me and Austin girl  
But I am here in another world  
She's in a house upon a hill  
And I wish I was with her still
