

**We were high as a Georgia pine  
Dancin on the county  
Racin all through the night  
The California highway**

**We were low on gasoline  
But in our hearts were burnin clean  
Goin fast like James Dean  
Livin on the freeway  
Livin life the free way**

**There is no one, nothin, nowhere to be  
There is only one another  
There is only you and me**

**We were laughin in the moonshine  
Didn't worry we were doin fine  
Just chasin down a silver mine  
On an Arizona Speed way**

**We were burnin like kerosene  
Every night starin down a dream  
Learnin just what it means  
Livin life the freeway  
Livin on the freeway**

**CH  
Daylight bends to kiss the hills  
Colours blend in purple sky  
That feeling comes like flooding light  
That feelin flows and its all right  
CH**
