

## How Long Does Lonesome Last

Calman Hart & Stephen Clark

I can't tell the hours from the days  
Since lonesome moved in and took your place  
Now the ticking of the clock feels like a hammer on my heart  
I don't know how much more lonesome I can take

How long does lonesome last  
How much time does it take to forget  
Will it end at the bottom of this glass  
How long does lonesome last

I walk around with it living in my head  
When I sleep it lies beside me in my bed  
I could handle it much better, I could make a brand new start  
If I only knew the day when it would end

How long does lonesome last  
How much time does it take to forget  
Will it end at the bottom of this glass  
How long does lonesome last

*[bridge, not on recording]*

I'm tryin' hard to keep myself together  
While I wait for it to pack its bags and leave  
But I worry it might stick around forever  
Unless you come back to me

How long does lonesome last  
How much time does it take to forget  
Will it end at the bottom of this glass  
How long does lonesome last
