AMBULANCE HEAD - New Single Release

Chilling release of their new single **Firetruck**, available worldwide this June.

War continually reigns in the Middle East powered by hatred, greed and mistrust. The rights to the enormous power of Liquid Gold; a constant backdrop and catalyst to the vindication given in the interpretation of a chosen God's word. As we rush to ignition, Mother Nature forces her hand with cataclysmic consequences, "Climate Change" the Zeitgeist for a generation. We stand on the brink. - *Richie Lambert*

"**Richie Lambert** holds within his grasp that little something which can bring the most innocent of smiles to a cynics face. He takes you by storm, the perfect Mr Compere Exuberant, and proceeds to fire live ammunition..." - John Dingwall — Sounds
