

**LYRICS FOR THE ODD SHOWER LP/CD  
AND LOVE RAT 7 INCH SINGLE**

**ONE MORE SUNSET**

All at once it happened so slowly, gradually an instant in time  
I was born and bored with the future, knowing that the past is online  
Overnight for years I'd been waiting, then all over in a lifetime  
odds are stacked like Dibnah's blown chimney, hoping that the planets align

All at once it happened so slowly, compromise and sever all ties  
All the times you don't even notice the perfect moment to last for all time  
All at once it happened so slowly, look up 'look up 'look alive  
Mock my culture I don't give a monkey's, it's ridiculous most of the time

All the times you don't even notice, blinded by the faintest outline  
All at once it happened so slowly, perfect moment to last for all time  
Overnight for years it is fading, one more sunset, one more sunrise  
Who are you to dare even ask this? one more sunset, one more sunrise

All the times you don't even notice, one more sunset, one more sunrise  
Look up, look up, look alive, one more sunset one more sunrise  
All the times you don't even notice, one more sunset, one more sunrise  
Look up, look up, look alive, one more sunset one more sunrise

## GIRLS IN F.I.T.S

There's girls fighting in the street, kicking off again  
something no one meant, nothing someone said  
wait wait fake fake hate hate

There's girls fighting in the street, kicking off again  
Something no one meant, nothing, and someone said  
they're only seeing red, dragging heavy hearts  
around on blistered feet, they're fighting in your street

They're trying to punch you in the boobs, kick you in your lunch  
CCTV has a fairly good hunch, but hindsight never stopped a punch  
from the girls fighting in the street

An ugly tattoo hides a beautiful scar  
They're crashing to the pavement as they tumble from the bar  
where they'll end up even uglier than they already are  
the girls fighting in the street

There's girls fighting in the street  
they'll catch their death of cold, they're catching STD's  
but no, they ain't no catch, and no they never will be 'demure or petit'  
the boys can't compete, with the girls fighting in the street

Here comes the ambulance, let it through  
Step aside please so they can start on them too  
on a vodka diet and ritual abuse  
all the Girls fighting in the street  
and look now her boyfriend's joining in  
he's holding her down as the boots begin  
and now, she's unconscious but later she'll feel  
for the gouged-out eye with the pointed heel  
and who could ever think oh they're only having fun?  
As they swear on baby's lives, they never swung for anyone  
with a knowing wink and smile for their grinning chums  
all the girls fighting in the street

that's Girls fighting in the street  
butchers carving meat, same time again next week  
for the girls fighting in the street  
something no one meant  
nothing someone said  
something no one said  
nothing someone meant

## KEEP THE RAIN

Abuse the good will until there's nothing left  
in the midst of summer, we are in debt  
Things are so much better  
when you've got the weather on your side

the law of averages who would dispute it  
there are Just 2 types the broken or deluded  
Things are so much better  
When you've got the weather  
When you've got the weather that's a lie

The rain sits at the bottom of the weather league  
and yet it always seems to have relegation beat  
to all the dullards who say it's needed every time it starts raining  
I'd like to ram their stupid heads into iron railings

tax avoidance beefs as your constituent's freeze  
you clear the debt of Greece or light Los Angeles  
for one night only  
things are so much better  
when you've got the weather  
When there's not a hosepipe ban in sight

to all the dullards who say it's needed when it starts raining  
I'll say "I'd rather sweat than shiver" is my favourite saying  
I'll take the sun, the wind, the snow and you can sing that again  
I'll sing that again  
I'll take the sun the wind the snow and you can keep the rain  
you can keep the rain  
things are so much better with the weather on your side

## ANGRY ALL THE TIME

Distracted, undermined and you're angry all the time  
You were born with the gift to blame anyone within range  
So many phone calls and e mails, yet all communications failed  
nothings up to scratch no more, to smile would break your jaw

I look at Robbie Williams and I see Freddie Starr  
I look at Ricky Tomlinson and I see SJR  
Bourton on the water to Ashton under Lyme  
Staffordshire to Stourbridge, you're angry all the time

You can never make up your mind on what you do, and you don't like  
If it ain't perfect u don't want it in perfect shape on perfect time  
I take Umbridge with your sidewalk I despise the dime you rhyme  
Don't you ever think about it why I'm angry all the time

As the youngest brother would, you knew too much for your own good  
Always on the lash, always looking for the catch  
Up in Wells next the Sea from Ivy Bridge to Battersea  
Newcastle upon Tyne you're angry all the time

Old money was polite, new money wants to fight  
Must be something underlying why you're angry all the time  
Better ask yourself just why you're angry all the time  
You're the microwave of love 30 seconds and you're done  
Unsaid this won't offend, but happiness won't come again

I look at Robbie Williams and I see Freddie Starr  
I look into the mirror and I see Richard R  
I look at Robert Zimmerman and that's just Vic Godard  
I look across the Solent and I see fort bouyard

Bourton on the water to Ashton under Lyme  
Staffordshire to Teesside you're angry all the time  
Staines Staithes Stourbridge you're angry all the time  
Newcastle upon Tyne Newcastle upon Tyne

You're vicious and you're spiteful and we've all had a gutful  
Jack Nicholson Neil Young the very same and one  
Where is my Papa? Where? Look at me son where is your father gone?

## NO MISTAKES

Make no mistakes whatever you do  
be kind to yourself, because we'll not forgive you

## MEN BEHAVING BADLY

On the edge of kid's beds with their heads in hands  
men breaking down  
Struggling with feelings that they don't understand  
Men breaking men breaking down  
trying to be what they think they should to be, and failing 'failing miserably  
In a self-medicated cocaine sludge that these water works they'll never budge  
in smoky cramped kitchens palms are rubbing eyes  
men breaking down  
parked up in the lay-bys sat screaming at the greying skies  
men breaking, men breaking down  
On building sites hot temples throb, to live a lie is the hardest job  
tougher than 2 Sherman tanks, thicker than 2x4 planks  
Oooh ooh ooh ooh  
drug dealers come around, as if they're ice cream vans  
just listen to the chimes- that's Tupac man  
unlike the women they've no tag that they can hang it on  
and they never had a war they could crawl back from  
men breaking, men breaking down  
Trying to be what they think they should be, and failing, failing miserably  
In a self-medicated cocaine sludge that these water works they'll never budge  
and they're lashing out, then they're crashing out  
with trolleys ramming shelves in supermarkets  
and falling to their knees onto fag burnt carpets  
on cold park benches suddenly, it dawns  
20 years binging now without a pause  
where'd it all go wrong? where has it all gone?  
drug dealers come around, as if they're ice cream vans  
listen to the chimes - that's Tupac man  
drug dealers come around, like they're ice cream vans  
just listen to the chimes

## THE LIVING BREAD

I took a piece of the living bread and I threw it to the ducks in the water  
I took a piece of the living bread and unlike yourselves they seemed very grateful  
I thought I'd try it, I didn't like it waking alone such a sad situation  
I got a guide dog, so I could follow, loves blind determination

where is the love and where was the humor? why'd we go to tangiers for?  
and your art yeah, no mincing words here it wasn't even what the artist saw  
I took a peek at the pandas plans, an automaton was not featured there  
already dead in human hands. dreaming of life from beyond extinction

I took a piece of the living bread and I threw it to the ducks in the water  
I took a piece of the living bread and unlike yourselves they seemed very grateful  
I thought I'd try it I didn't like it waking such a bad situation  
I got a guide dog, so I could follow loves blind determination  
loves blind determination yeah

## THE ODD SHOWER

Van Gogh lived there you know  
One hundred years before punk would explode  
And this is the film we were watching  
On the night you were conceived  
We drum it into your sweet head  
to keep aware and never forget  
We're kidding ourselves to death here  
that you can live your life without a care  
Trying to peel a sand covered peach  
Huddled for cover on a rain swept beach  
You were born to trust us  
So, close your eyes and jump  
we stayed up to watch the sunrise  
Three tired people with the fire in their eyes  
and you our little ray of sunshine  
and the odd shower

## WORDS OF LOVE

Words of love wrapped around your tongue  
spit it out and shower everyone  
I know I ain't got the patience of a saint  
but I try to outrun my worst family traits  
Words of love, throw away your guns  
sleep in peace, woken by the sun  
the search goes on but then that's half the fun  
to find someone and a place you can love

Look into my eyes the soul's on fire  
without you I'm rust the ghost of desire  
if you didn't exist, I would never invent you  
no I won't put myself through all that again

Here I am melting in the sun  
draining out and scared of everyone  
of all the types you swear that you don't like  
how many have you ever tried  
Words of love de-valued over sung  
words of love only when you come  
you led me to it then when you said let's do it  
permission to heaven no clouds crossed the sun

Roses are red so you think you're the bard  
but nothing is said in your valentines' card  
Seduction techniques from the Marque de Sade  
lie down with your enemy and watch as your hatred grows hard  
Amoure di amour  
Words of love, no not for everyone  
words of love, only when you come  
are you ever gonna come?

You take the advice and you open the jars  
and taking the pills to change who you are  
production techniques of Von Trier Lars  
lie down with your enemy and watch as your hatred grows hard  
don't mess around don't muck around don't go without your love  
Don't go without your love

## Extra tracks on CD version

### COLD SEMEN RAIN

Some will complain While others give thanks  
some people are born that should have been wanks  
The ghosts of our pleasure both Jekyll and Hyde  
This man is insane this woman is Tied  
Sweat peas of love or Children of rape  
Well I've seen the forecast it's more of the same

I looked in my mind to what I know best  
And what I knew best was I couldn't care less  
I couldn't care less and hard as I try  
Something missing inside black is the night  
Black is the night for a heart gone astray  
I've seen the forecast more of the same  
lost generation slips down the drain

hard as you try for no part in their games  
time isn't straight it moves either way  
these are not mine so take them away  
you climbed up so high and love fell away

what's really obscene you don't have a clue?  
so, who's squeaky clean not me and not you  
I've seen the forecast it's more of the same  
something is hiding in the cold semen rain

you can't be all things you need a badge in this world  
I had a wet dream and then I was a girl  
a widow's supplies all bodged d.i.y  
they look at me here through the ugliest eyes

Still no use in crying you will come again  
sweet peas of love, children of rape  
so dark is the night you pray for the day  
someone is dying in the cold semen rain  
so maybe it's right this man is insane  
something is crying in the cold semen rain

## **LIFE GOES ON FOREVER**

Win this battle, lose the war, impossible decisions  
agents for the greater good, bombarded with derision  
when you're down and feeling blue just try hard to remember  
the goodness may be gone from you, but life goes on forever

Gently sway the cedar tree, a leaf slips from the branches  
15 soldiers on their knees crack up as fate advances  
keep your balance at the height, tiptoe through the bullshit  
devote your life to things you might not live to see them finished

Seize up here or melt abroad, survivors seek small pleasures  
a boat is waiting at the shore and life goes on forever  
lose this battle to win the war, impossible dilemma  
nothings certain that's for sure but life goes on forever

## **EVERYTHING YOU'VE DONE**

Let's drink to the optimistic young  
although they speak a different tongue  
it ain't wise to know someone  
so well that you know all they've done  
I can't live my life for you even though I'm trying to  
there comes a time the time has come  
don't tell me everything you've done

## UNTIL LOVE DON'T EXIST

you can't undo what's been done you can't un-sing what you've sung  
I don't know what I'm standing on or where I'm calling from

I'll keep waiting and I'll keep calling  
I'll keep waiting and I'll keep calling  
I'll keep waiting and calling  
and waiting and calling  
We'll get back to you

when you're dying to begin so you're lying to fit in  
I don't know how to make this clear I'm struggling here

I'll keep waiting and I'll keep calling  
I'll keep waiting and I'll keep calling  
I'll keep waiting and calling  
waiting and calling  
It's all that I can do

I'll eat when I'm hungry I'll drink when I'm thirsty  
come when I'm caught in the grip  
I'll sleep when I'm tired, I'll wake when inspired  
until love don't exist  
I'll eat when I'm hungry I'll drink when I'm thirsty  
come when I'm caught in the grip  
I'll sleep when I'm tired and I'll speak when required  
until love don't exist  
I'll eat when I'm hungry I'll drink when I'm thirsty  
come when I'm caught in the grip  
I'll sleep when I'm tired and I'll wake when required  
until love don't exist  
until love don't exist

I'll keep waiting and I'll keep calling  
I'll keep waiting and I'll keep calling  
I'll keep waiting and calling and waiting and calling  
It's all that I can do

## ADDISON BROTHERS (VIC'S MIX)

slow down, slow down, I think you missed the turning  
turn round, turn round, you're not listening to me  
driving through villages, just like the Winterson book  
daren't park the car up from judging from the locals looks  
with their productivity deals at the Fenjal hospital  
the more I see the less I feel

like breakfasts with fried bread  
we left the Kelly sisters  
to heart attacks and slaps

the Addison brothers not like the others  
it's not a shame to feel ashamed  
the Addison brothers pull back the covers  
we're on our way, it's a new day

from England's traitor to celebrity loser  
Kim dreams of Taylor's bumble cottage  
the rain rolls down the hill, and time at last the healer  
big bruv I gotta hit the tub and wash away this festered journey cause

we took the easy option  
more than once too often  
time for us to pay

the Addison brothers, not like the others  
it's not a shame to feel ashamed  
the Addison brothers, pull back the covers  
we're on our way it's a new day

anyway, it's like Pam said  
'they're probably shackled up with some big old country girl by now'  
see you Saturday

fractured cheekbone for your birthday  
another cold sore valentine's day  
it's time that our luck changed

## LOVE RAT 7 INCH SINGLE

### LOVE RAT

I'm from a big family batch  
dog eat dog catch the scraps  
an old skool hand me down jack  
as a matter of fact  
I'm a bit of a twat  
I never lose tit for tat  
to me the odds always stacked  
oh yeah and I'm a love rat

and no, I'm not very nice  
I'm worse than dancing on ice  
but no, I wouldn't think twice

because yeah, I'm a love rat baby  
the meanest mother lover you never wanna meet

if you're cornering me  
and only then will you see  
I have a bag always packed  
oh yeah, I'm a love rat  
so, you all love to hate me  
but you'd all love to date me  
and you cannot escape me  
I'm a love rat  
a gangster with his goombah  
to me that's amateur hour  
there's no such thing as too far  
I'm a love rat baby  
and no one's gonna tame me  
I'm a love rat see  
no if's no but's most definitely  
no maybe's  
God I'm only a man  
the hunter gatherer clan  
oh, know you won't understand  
I cannot stop what am though

I'd crawl over my brother  
just to get to your mother  
if it breathes then ill screw it  
if it don't, I'll still do it  
no one's beating me to it  
Cos I'm a love rat  
I'd crawl over my brother  
just to get to your mother  
well soon you'll discover  
I'm a love rat yeah  
you wouldn't wanna take anywhere

I'm a love rat baby  
sad but I'm never lonely  
I'm a love rat me  
the meanest mother lover you'll ever meet  
I'm a love rat baby  
and no one's gonna tame this  
love rat love rat love rat  
and no one's gonna tame this  
love rat

## LESS THAN LOVE

less than love less than love  
why would anyone? settle for anything?  
less than love less than love

explosive at work he's home in a rush  
stares at his tea I'm not eating this muck  
you laughed with a barman paid it no mind  
now you're in stitches so now you're in stitches  
though not the laughing kind

less than love less than love  
how could anyone? wish upon another one?  
less than love less than love

the door is ajar the embryos scream  
we try to hang on but we're nobody's dream  
please spare us the facts they're hurting our eyes  
just let us be foolish & fiercely stupid  
just let us be foolish be foolish funny and wise

you'll need it contracts to see it in writing  
prenuptials agreed the screws are all tightening  
you follow your heart and it never works out  
the door is flung open  
yes, the door is flung open and time is running out

I'll try anything whatever way you want it  
we'll I know it's my fault just don't leave me on my own.  
please come back
