

# LOVIN' THINGS

M. Lambert, L. Lambert, M. Yopez, D. Bankston

Working all day making big pay  
To buy the things that make him feel alive  
He's a taker, manipulator  
A great big house is just a place to hide

He tries to figure out what's missing in his life  
Living out his dreams but it just don't feel right  
Stays at home and eats alone with his new Flatscreen wife  
But he hasn't talked to God since he's been living right?

Loving Things and using people  
cause we all just need to feel the love right now  
When are we ever gonna stop loving things and using people  
Cause money just don't make the world go round

Material girl in her own world  
Wrapped in the finest linen, silk and lace  
She's a user and abuser  
All alone, no one to share her grace

Now she just can't figure out what's missing in her life  
She's living out her dreams but it just don't feel right  
She goes out with her friends who keep her out of sight  
And she hasn't talked to God since she's been living right?

Stop Loving Things and using people  
cause love is what we need to find somehow  
When are we ever gonna stop loving things and using people  
Cause money just don't make the world go round

Stop Loving Things and using people  
You'd better stop right now before it brings you down  
When are we ever gonna stop loving things and using people  
Cause money just don't make the world go round
