

Living Without You

M. Lambert

Justified Take a breath and hold that feeling, said goodbye again
Trapped in time Everything is spinning round me
I don't think I'm holding on All this gravity's too strong
Wastin time Moving on but goin nowhere Just can't find my way
Can't deny the better part of me is gone and I'm trying hard to understand
How you slipped right through my hands

Every time I think you've walked away I still see you standing there
All those memories I thought would fade I can see you everywhere

I want you I need you I just can't get through to you
Every moment without you
Is like a whole day from my life and I just can't go on If it's living without you

All my life Waiting for that someone who could Touch me to my soul
Like a knife you cut me to the bone and I don't
Think I'll ever be the same just the mention of your name
Every time I think you've walked away I still see you standing there
All those memories I thought would fade I can see you everywhere

I want you I need you I just can't get through to you
Every moment without you
Is like a whole day from my life and I just can't go on If it's living without you
I want you I need you I just can't get through to you
Every moment without you
