

# **CRAZY BEAUTIFUL LIFE**

(Callaghan/ Matkosky)

Here we are  
You and me and we got nothing to do  
It's a perfect day, shining all around us  
The sky's never been so blue

Here we go, walking on sunshine  
Every step, just taking our sweet time  
All we got is all we need in this  
Unpredictable, crazy beautiful life, life, crazy beautiful life

It seems to be, life gets a little faster, every day  
I wanna slow it down, breathe it in  
Make it last, make it stay

Here we go, walking on sunshine  
Every step, just taking our sweet time  
All we got is all we need in this  
Unpredictable, crazy beautiful life, life, crazy beautiful life

Nothing gonna get in our way now  
Whatever comes we'll get by somehow  
All we got is all we need  
In this unpredictable, why not risk it all  
Heartbreakingly sad and wonderful,  
This crazy beautiful life

# WHO WOULD I BE

(Callaghan/ Matkosky)

There are days I know that I'm right where I should be  
But underneath nothing makes any sense  
And I get lost sometimes

With all the fear with all the doubt  
With all the voices crying out  
Who would I  
Who would I be without you?

Without you  
Without you  
Who would I  
Who would I be without you?

I can see all the things that I have left behind  
But when I close my eyes  
I feel the strength you give me to survive  
It's what you do to me  
It's what you do to me

With all the fear with all the doubt  
With all the voices crying out  
Who would I  
Who would I be?

With every step along the way  
Every choice that I have made  
Who would I Who would I be without you?

Without you  
Without you  
Who would I  
Who would I be without you?

# **NOAH'S SONG**

(Callaghan)

My wish for you, do the best that you can do  
Try to touch the sky  
I hope you find happiness and peace of mind  
I know you'll be alright  
As you learn to fly

I hope life treats you kind  
And you dream sweet dreams every night  
And you hold onto the love you find

I hope you get most of what you desire  
When you think you've done enough  
You reach a little bit higher  
When it's cold outside you feel the fire inside

Keep your head held high, look life in the eye

My wish for you, do the best that you can do  
Try to touch the sky  
I hope you find happiness and peace of mind  
I know you'll be alright  
As you learn to fly

I hope that you grow old  
When the nights draw in you have a warm hand to hold  
And you always give more than you owe

I hope you find that thing that makes you smile  
And you take the time to stop once in a while  
And you're not afraid to cry  
You're not afraid to cry

My wish for you, do the best that you can do  
Try to touch the sky  
I hope you find happiness and peace of mind  
I know you'll be alright  
As you learn to fly

# **I'LL TAKE YOU AWAY**

(Callaghan/ Matskoky)

When the world is trying to bring you to your knees  
You keep on searching but you can't find what you need  
Ill take you away  
When you're out of hope and all your strength is gone  
When you're drowning, trying to fight the storm  
Ill take you away

Past the heartache, and all regrets  
Past the lonely nights and the emptiness  
Never touch the ground, never fade away  
Ill take you away  
Ill take you away

When you try so hard but nothing makes sense  
When no one out there will come to your defense  
Ill take you away  
When you can't remember how to laugh or cry  
When the walls around you get so high  
Ill take you away

Past the heartache, and all regrets  
Past the lonely nights and the emptiness  
Never touch the ground, never fade away

Ill take you away  
Ill take you away

Past the heartache, and all regrets  
Past the lonely nights and the emptiness  
Never touch the ground, never fade away

Ill take you away  
Ill take you away

# **BEST YEAR**

(Callaghan/ Stephens)

This could be the best year of our lives  
If we tear up the rule book  
Leave it all behind  
You work all day 'till you close your eyes  
Let's get out of this town  
Find some bluer skies

And I feel the good times coming  
And I see a new sun rising  
Don't wait, it's on the horizon  
This could be, the best year of our lives

Thinking about it, I don't know why we waited so long  
Sitting there at that desk was never where I belonged  
Now we'll take this chance, do something of our own  
Fly across an ocean, move a thousand miles from home

And I feel the good times coming  
And I see a new sun rising  
A blue sky and an endless horizon  
This could be the best year of our lives

Sometimes life offers a chance, just one moment falls in your hands  
Win or lose, wrong or right, life is all about the ride

And I feel the good times coming  
And I see a new sun rising  
Don't wait, it's on the horizon  
This could be, the best year of our lives

# LOST

(Callaghan)

Late last night I dreamed you were leaving  
Gone so far, gone with no warning  
And the days grew dark and long  
So quiet, like a bird with no song  
When you were gone

What would I do, where would I go  
How would I feel, how would I know  
How to move on, if you were gone

They all say I should be stronger on my own  
But I can't help this feeling of hunger in my bones  
There's no way to hide it, no way to disguise it  
The way that I'm needing you now

What would I do, where would I go  
How would I feel, how would I know  
How to move on, if you were gone, if you were gone

I wish I could go back to dreaming  
And wake up with you by my side  
Or have you for just one more moment  
And stop time, just hold time

What do I do, where do I go  
How will I feel, how will I know  
How to move on, now that you're gone

Oh what do I do, where do I go  
How will I feel, I'll never know  
How to move on, now that you're gone  
Now that you're gone

What do I do?  
What do I do?

# **GREEN EYES**

(Callaghan)

Your green eyes catch the starlight here tonight  
They see right into mine, those green eyes  
And all I want to do is keep them in my sight

How come they see everything that I've been hiding  
And every part of me  
No matter what, through the loving and the fighting  
They're all that I can see

In those green eyes I see my future lies by your side  
Oh and I could try to question why those green eyes  
Hold me so completely but I'm tied

How come they see everything that I've been hiding  
And every part of me  
No matter what, through the loving and the fighting  
They're all that I can see

How come they see everything that I've been hiding  
And every part of me  
No matter what, through the loving and the fighting  
They're all that I can see

Your green eyes catch the starlight here tonight

# FREE TO BE

(Callaghan/ Matkosky)

My head's still spinning, I'm lost in a dream  
The sun breaks through like it knows how it feels  
To be alright, to be alright

I'm caught in emotion, I feel everything  
The world that surrounds me, it makes me believe  
That it's alright, that it's alright

We can be free, have all that we need  
We can make life anything we want it to be  
We can be happy, as long as you stay here with me  
We can make life anything we want it to be  
Anything we want it to be

When everything's crazy there's somewhere to go  
And it makes me smile to know what I know  
That it's alright, that it's alright

We can be free, have all that we need  
We can make life anything we want it to be  
We can be happy, as long as you stay here with me  
We can make life anything we want it to be  
Anything we want it to be

In the eye of the storm  
I'm safe and I'm warm  
If I have you to hold  
I'm home  
Home

We can be free, have all that we need  
We can make life anything we want it to be  
We can be happy, as long as you stay here with me  
We can make life anything we want it to be  
Anything we want it to be

# **WHEN YOU LOVED ME**

(Callaghan/ Kaset)

When you loved me  
I was alive in every moment  
The moment played out like a movie scene

When you loved me  
I had everything I wanted  
Reality was sweeter than the dream  
When you loved me

Everything was simple then  
My heart was virgin pure  
When you're that young and innocent  
It's easy to be sure

And god I believed how beautiful life could be

When you loved me  
I was alive in every moment  
The moment played out like a movie scene

When you loved me  
I had everything I wanted  
Reality was sweeter than the dream  
When you loved me

Maybe in another world, maybe in another time  
If we met tomorrow you would still be mine

When you loved me  
I was alive in every moment  
The moment played out like a movie scene

When you loved me  
I had everything I wanted  
Reality was sweeter than the dream  
When you loved me

Oh god I believed  
When you loved me

# **PARACHUTE**

(Callaghan/ Wakeman)

The sky, it was falling  
Stars were at my feet  
My heart, it was heavy  
Weighing down on me  
The light, it was fading  
You were all I could see  
You were calling me

Whenever I fall to my knees  
Whenever this fear takes hold of me  
I reach for you  
You're all that I hold on to  
My parachute, parachute

This love has seen it all  
Happiness and pain  
The weight on your shoulders  
Trying to take the strain  
Your arms were open  
Keeping me from harm  
You were calling me

Whenever I fall to my knees  
Whenever this fear takes hold of me  
I reach for you  
You're all that I hold on to  
My parachute, parachute

Whenever I fall to my knees  
Whenever this fear takes hold of me  
I reach for you  
You're all that I hold on to  
My parachute, parachute

# LAST SONG

(Callaghan/ Beeson/ White)

Sometimes I think the earth is flat  
People sail away and don't come back, words unspoken  
We count on things that slip away  
Another chance, another day, gifts unopened

Tomorrow may be more than even heaven can allow  
I want you to hear me, hear me now

If this is the last song  
Make it real, make it strong, make it last all night long  
If this is the last thing I ever do  
I'm singing this last song, last song for you

Sometimes I wanna wake you up  
Try to hold you close enough, show you I love you so much  
You're the reason in my rhyme, the heart that beats in every line  
In each kiss and sweet touch

Before this moment fades into another yesterday  
I want you to hear me, hear me say

If this is the last song  
Make it real, make it strong, make it last all night long  
If this is the last thing I ever do  
I'm singing this last song  
The last song for you

When the curtain falls one final time  
You'll go your way, ill go mine,  
But before I say goodbye...

If this is the last song  
Make it real,  
Make it strong,  
Make it last all night long  
If this is the last thing I ever do  
I'm singing this last song  
The last song for you

# **WE DON'T HAVE TO CHANGE THE WORLD**

(Callaghan/ Matkosky)

We don't have to change the world  
We don't need to find our way  
We can stay right here, lay back, relax  
Let the sun just chase our blues away

Let the planets spin around a few thousand times  
Let the madness and the pressure and the monday lives  
Just fade away to only you and I

When everybody's telling you, there's something else you gotta do  
Every day you let another chance slip away  
But they don't know what we know

We don't have to change the world  
We don't need to find our way  
We can stay right here, lay back, relax  
Let the sun just chase our blues away

Let the moments go where they wanna go  
Don't worry about losing control  
Cos it's just a need, we can't explain  
And we never have it anyway

We don't have to change the world  
We don't need to find our way  
We can stay right here, lay back, relax  
Let the sun just chase our blues away

Let the storms roll by  
Everything will be alright  
Baby we can save the fight  
for another day

We don't have to change the world  
We don't need to find our way  
We can stay right here, lay back, relax  
Let the sun just chase our blues away
